TRACKING KEY GPS TRACKING SYSTEM

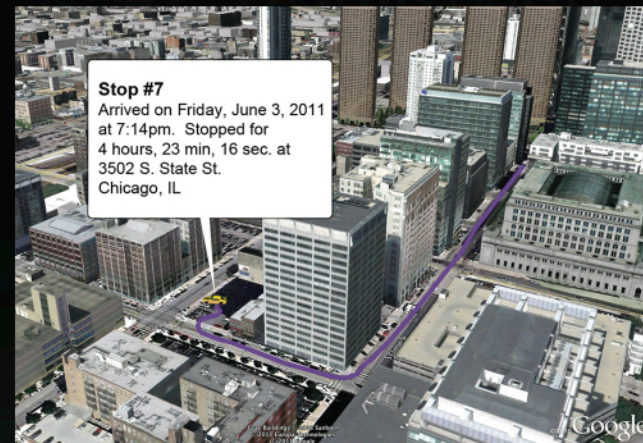

The classic GPS Tracking Key is LandAirSea's best-selling passive GPS tracker. The GPS Tracking Key has been designed with precision, simplicity and durability. Offering portability and covert placement when necessary, the GPS Tracking Key is ideal for various application requirements such as fleet management, law enforcement and personal vehicle tracking.

GPS TRACKING KEY FEATURES

- GPS accuracy of 2.5 meters
- records GPS data every second
- GPS data includes speed, route traveled, location and duration of stops
- simple and detailed activity text reports
- powerful magnet mount
- interior or external vehicle mounting
- pocket-sized design
- battery life of two weeks
- uses two AAA batteries
- no monthly fees
- works internationally

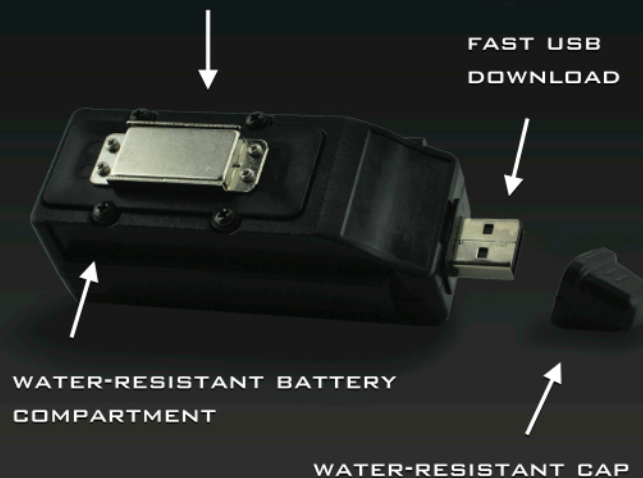

**The Tracking Key is a GPS data logger. You simply retrieve the device from the vehicle or asset that has been tracked and plug it into your computer's USB port to view the data on your PC with the installed Past-Track software (PC only).
